PROJECTS (30+)

● **Education platform (fullstack)**
  Status: Under development
  LINK: https://chatbook123.netlify.app/

A modern, responsive online education platform built with React and Vite that connects students with teachers and provides a seamless learning experience. (still under development)

● **Social Media Lite (fullstack)**
  Status: completed
   LINK: https://chatbook123.netlify.app/

This is a simple social media web app built using HTML, CSS, and JavaScript.
 It allows users to register, log in, and create, edit, or delete posts with images.
 Data is managed using Axios to communicate with a REST API from the Backend.
 The app supports user authentication, dynamic post display, and infinite scrolling.
